Battlefield 1 Xbox One 30 GB HDD 2GB Radeon GPU (at least) Mojang's own game, Minecraft, is something of a mixed bag. The game has proved incredibly popular, and it's not hard to see why. The gameplay, however, is a little disappointing. Its open-world environment means that the battles never really feel epic, and you can feel the freedom and options which Mojang has given you. This is something which is part of the gameplay, and the open nature of the game should not be a hind
